You Deside!

Kate is letting the fans decide what happens to StarClan cats once they fade away!

Disappear into oblivion, become a part of a second StarClan, or reincarnate and so on.

Personally, I believe they just disappear. Vicky believes they are gone forever once they fade.

Comment what you think!

P_A83 out!

Facts #1

-In *Into the Wild*, Rosetail was mentioned in the book but was forgotten in the allegiances.

-Wind Runner would much rather have her mate than her kits.

-Jagged Peak hated Holly at first, thinking she was a show off, but grew to become attached to her.

-When Bluestar fell into the gorge, Oakheart's spirit guided her to the surface so she could see her kits one last time.

-*Ravenpaw's Farewell* takes place at least a year after the Clans left the forest territory.

-Ashfur and Squirrelflight wouldn't have worked out because Ashfur would've held Squirrelflight down. She needed someone to *match* her fire, not put it out.

-Cherith doesn't believe Shrewpaw and Squirrelflight would have been good mates.

Facts #3

[image]

-Above is the cover for *Ravenpaw's Farewell!*

-Vicky liked it when the artist made Crookedstar look battered on his cover, but the publisher said it looked too battered so they softened his jawline.

Facts #4

Thanks Fanlord1987 for the first fact and DarkEdgeCrow for the last four!

***

-Kate wanted to have Greystripe as leader but the others objected.

-The Warriors series was going to be a children's picture novel, but as their ideas formed, they realized it would be too violent so they made it a young adults series.

Facts #5

Thanks Fedalex_6crazy for the first fact, DarkEdgeCrow for the second, and Fluffy_Dragon_ for the third!
***

-On page 11 of *Starlight*, Tallstar's name is mistakenly spelled "Tall-star".

-Russetfur is Raggedstar and Scorchwind's sister.
